Introduction

Welcome to the 2006-2008 edition of the Guide to Development Education Resources in Ireland. Once again, this guide has been produced by Irish Aid in partnership with Trócaire, both of whom have long established expertise in the promotion of development education and the dissemination of information on current and best educational resources in this field.

The guide is intended to be as user friendly and relevant as possible. It includes over 300 excellent resources suitable for teachers and students at primary and second levels, community and adult education tutors, trainers and youth workers and development educators.

The Primary Level Resources section contains a wide range of resources, some of which, particularly those for younger children, are cross-curricular in design. Others focus on specific strands and strand units of the curriculum, with a particular emphasis on SESE and SPHE. Most primary level resources feature high quality photographs that promote positive images of everyday life in a variety of countries and cultures.

At Second Level, there continues to be an abundance of resources created for CSPE and several exciting new Geography resources. The current review of the Senior Cycle is opening up new pathways for the inclusion of development education within the curriculum. The new development of transition units and short courses will allow much more freedom for the inclusion of global development issues, for which the new resources listed in the Leaving Certificate Applied, Transition Year and Leaving Certificate Vocational sections of the Guide will have much relevance. New resources for areas such as Mathematics and Science, Religious and Values Education are also featured.

The guide also includes sections for youth, adult and community groups. The Youth Work Resources section contains many innovative resources designed to harness the vibrant and creative energies of young people. The section on Adult and Community Education includes resources for use with groups and also some background information on global trends in this sector. The Games and Activities section contains stimulating and provocative games, activities, role-plays and simulations suitable for all ages and settings.

The section 'Handbooks, Journals and Reference Materials' focuses on theories, methodologies and best practice in development education and other related fields, such as intercultural and anti-racist education, with new Irish publications featured. It also contains a list of development education journals and a selection of current reference materials on development and justice issues. The Website section has been expanded greatly to include a selection of sites on campaigning, development education and development issues. The Contacts section lists Irish organisations which can supply development education speakers and/or resource materials to schools and community groups.

For ease in ordering resources, the main supplier's email or website address is listed with each entry, although many resources are available from a number of suppliers. Prices are currently accurate but may fluctuate, so it is best to confirm with suppliers when purchasing. There is a great increase in the number of resources available free on-line, usually in pdf format. For these the appropriate web address has been given. This guide will be available on the Irish Aid website at: www.irishaid.gov.ie and on the Trócaire website at: www.trocaire.ie.

The Millennium Development Goals

The eight Millennium Development Goals, agreed by the UN in 2000, address some of the main causes of extreme poverty in today's world and provide the context for the poverty reduction policies and activities of Irish Aid and the development NGOs. The Millennium Development Goals require the international community to:

Eradicate extreme poverty and hunger; achieve universal primary education; promote gender equality and empower women; reduce child mortality; improve maternal health; combat HIV/AIDS, malaria and other diseases; ensure environmental sustainability; develop a global partnership for development.

Irish Aid and Trócaire believe that development education can play a crucial role in making progress towards the achievement of the Millennium Development Goals. Development education aims to increase understanding of development issues, challenge attitudes which perpetuate poverty and injustice, and empower people to take action for a more equal world. The resources listed in this guide will help learners to increase their understanding of the economic, social, political and environmental forces which shape our world and connect our lives to the lives of people far away. The resources also support the development of skills, attitudes and values which will enable people to work together to bring about a more just and sustainable world.

Réamhtra

Fáilte chuig eagrán 2006-2008 de Eolaire d'Acmhainní Oideachais Fhorbartha. Uair amháin eile tá an t-eolaire seo curtha amach ag Cúnamh Éireann i bpáirtíocht le Trócaire. Tá an dá ghrúpa seo bainteach le fada an lá, agus an-chumas acu, i gcur chun cinn an oideachais fhorbartha agus i scaipeadh eolais faoi acmhainní reatha agus faoi na h-acmhainní is fearr san ábhar seo.

Tá i gceist go mbeadh an t-eolaire seo chomh so-úsáide agus chomh h-áisiúil agus a fhéadfadh a bheith. Tá breis agus trí chéad acmhainn den scoth ann atá oiriúnach do mhúinteoirí agus do mhic-léinn ag an mbun agus an dara leibhéal, do theagascóirí pobail agus daoine fásta, do thraenálaíthe agus do oibríthe le h-ógánaigh agus do oideachasóirí forbartha.

I gcás Acmhainní Roinn na m-Bun Scol tá raon leathan ann, go bhfuil cuid acu, go h-áirithe iad san a bhaineann le leanáí óga, deartha chun na cúrsaí scoile a thrasnú. Díróinn cinn eile ar shraitheanna faoi leith agus ar aonad de shraith an chúrsa le béim faoi leith ar OSTE agus ar OSPS. I gcás acmhainní an chuid is mó de na bun scoileanna tá réimse grianghraf de ard-ghrád acu a léiríonn íomhá dheimhneach don saol laethúil i dtíortha agus i gcultúir éagsúla mórthimpeall an domhain.

Ag an Dara Leibhéal leantar ar aghaidh le flúirse acmhainne do OSSP agus roinnt cinn nua sa Gheografaíocht le dealramh. Tá slite nua á bplé san athbhreithniú atá ar siúl san Roinn Sinsearach atá ag oscailt bhóithre nua mar oideachas forbartha a chur ar an gcúrsa. Tabharfaidh an fhorbairt nua d'aonaid targhabhála agus de chúrsaí gearra níos mó saoirse gnéithe forbartha domhanda a bheith san áireamh, go mbeidh an-bhaint ag na h-acmhainní nua, luaite san chuid sin den Eolaire, a bhaineann leis an Ard Teistiméireacht Fheidhmeach, leis an Idir-Bhliain agus leis an Ard Teistiméireacht Ghairmeach. Tá acmhainní nua do ábhair mar Mhatamaitic agus Eolaíocht agus Oideachas Chreidimh agus Luachála luaite, chomh maith.

Tá ranna do ógánaigh, do dhaoine fásta agus do ghrúpaí pobail san eolaire chomh maith. San chuid de Acmhainn Obair na h-Óige tá mórán acmhainn fiontrach atá deartha chun úsáid a bhaint as fuinneamh beoga, cruthaitheach na ndaoine óga. Clúdaíonn an chuid a bhaineann le h-Oideachas Daoine Fásta agus Oideachas Pobail acmhainní a úsáidfe le grúpaí, mar aon le h-eolas cúlra ar chlaonta domhanda sa rannóg seo. Tá cluichí bríomhara, dúshlánacha, gníomhaíochtaí, gné-aithriseoireachta agus cumadóireacht atá in oiriúint do gach aois-ghrúpa agus do gach ócáid le fáil sa rannóg a bhaineann le Cluichí agus le Gníomhaíocht.

Díróinn an chuid 'Lámhleabhair, Irisleabhair agus Ábhair Thagartha' ar theoiricí, ar mhodhanna agus na cleachtais is fearr in oideachas forbartha agus le gnéithe atá gaolmhar leis mar oideachas idir-chultúir agus oideachas frith-chinióchais, agus foilseacháin nua Éireannacha san áireamh. Tá liosta de irisleabhair ar oideachas forbartha agus rogha de ábhair thagartha reatha ar ghnéithe na forbartha agus na córa. Tá rannóg an t-Suímh Idirlín méadaithe go mór le rogha de shuímh ar fheachtas, ar oideachas forbartha agus ar ghnéithe forbartha. Tugann rannóg na d-Teagmhála liosta de eagraíochtaí Éireannacha gur féidir leo cainteoirí ar oideachas forbartha agus/nó ábhair acmhainne a sholáthar do scoileanna agus do ghrúpaí pobail.

D'fhonn caoithiúlachta in ordú acmhainní, tá seoladh ríomhphoist nó suíomh idirlíon an tsoláthraí phríomha le h-ais a iontrála, cé go bhfuil a lán des na h-acmhainní ar fáil ó sholáthraithe éagsúla. Faoi láthair tá na luachanna i gceart, ach, d'fhéadfaidís dul suas nó síos, agus dá bharr san, tá sé níos fearr a dheimhniú le soláthraithe nuair atáthar ag ceannach. Tá méadú thar na bearta ar acmhainní ar fáil saor ar-líne, de ghnáth i bhfoirm pdf. Tá an seoladh idirlíon cuí tugtha dóibh san. Beidh an t-Eolaire seo ar fáil ar shuíomh idirlíon Cúnamh Éireann ag: www.Irishaid.gov.ie agus ag suíomh idirlíon Trócaire ag: www.trocaire.ie.

Aidhmeanna Forbartha na Mílaoise

Déanann an t-ocht aidhm de chuid Fhorbairt na Mílaoise, gur aontaigh na Náisiúin Aontaithe fúthu i 2000, plé ar roinnt de phríomh chúiseanna fhíor-bhochtaineachta i ndomhan an lae inniu agus tugann siad comhthéacs ar pholasaithe laghdú bhochtaineachta, ar ghníomhaíochtaí Chúnamh Éireann agus na GNR. Éilíonn Aidhmeanna Forbartha na Mílaoise ón bpobal idirnáisiúnta:

Deireadh a chur le bochtaineacht ghátarach; bunoidreachais a sholáthar go h-uilíoch; ionannas idir fhir is mná agus mná a neartú; bás leanbh a laghdú; sláinte na máthar a fheabhsú; dul i ngleic le VEID/SEIF, maláire agus galair eile; leanúnachas timpeallachta a dheimhniú; páirtíocht domhanda a chothú ar son na forbartha.

Ceapann Cúnamh Éireann agus Trócaire gur féidir le oideachas forbartha páirt an-mhór a ghlacadh i gcur i gcríoch Aidhmeanna Forbartha na Mílaoise. Sé atá i gceist le h-oideachas forbartha ná go mbeadh tuiscint níos fearr ar ghnéithe forbartha, dúshlán a thabhairt ar dhearcadh a chuireann faid le bochtaineacht agus le h-éagóir agus a thiomáineann daoine chun gníomhú ar son domhain níos cothroime. Cabhróidh na h-acmhainní liostáilte san eolaire seo le foghlaimoírí cur lena gcuid eolais ar fhórsaí eacnamaíochta, sóisialta, polaitiúil agus timpeallachta a mhúnláionn ár ndomhan agus a nascann ár saol le saol na ndaoine i bhfad i gcéin. Tacaíonn na h-acmhainní, chomh maith, le forbairt scileanna, dearcadh agus luachanna a chabhróidh le daoine oibríú le céile chun domhan cóir agus inmharthana a chruthú.

Irish Aid

Irish Aid is the Government of Ireland's official programme of assistance to developing countries. Irish Aid is a division within the Department of Foreign Affairs.

Development assistance is an integral part of Ireland's wider foreign policy. Our programme reflects Ireland's longstanding commitment to human rights, international cooperation and the peaceful resolution of conflicts.

Poverty reduction is the overarching objective of Irish Aid and to this end we support development programmes in over 30 of the world's poorest countries, with a particular focus on sub-Saharan Africa.

Ireland's recent economic success means that we can now devote much greater resources to helping some of the world's poorest countries to develop. In 1996 we spent €142 million on official development assistance (ODA). In 2006, the total will be €734 million.

These increases are set to continue. The Government is committed to reaching the UN target of spending 0.7% of GNP on official development assistance in 2012.

Assuming current levels of GNP growth, spending on development in that year will be of the order of €1.5 billion, making Ireland one of the most generous donor countries in the world.

Increasing people's understanding of development in Ireland is a key priority for Irish Aid. Development education plays an important role in helping Irish people of all ages to understand better the links between their lives and the lives of people in other parts of the world and the role that they can play as Irish and global citizens in making a better and more equal world for us all.

Trócaire

Trócaire was set up by the Irish Catholic Bishops in 1973 to express the concern of the Irish Church for the suffering of the world's poorest and most oppressed people. When it was established Trócaire was given a dual mandate: to support long-term development projects overseas and to provide relief during emergencies; and at home to inform the Irish public about the root causes of poverty and injustice and mobilise the public to bring about global change.

Trócaire encourages young people to engage in the debate around global citizenship through Development Education. Trócaire achieves this through its work with and through educators and schools in the formal sector and through a small grants scheme in the informal sector.

This approach engages young people with global issues and provides a platform where they can reflect, learn new skills and take action on the issues as they see them

Trócaire works at:

- Enabling young people to understand the links between their own lives and those of people throughout the world;
- Increasing the understanding of the economic, social, political and environmental forces which shape our lives;
- Developing the skills, attitudes and values which enable young people to work together to bring about change and take control of their own lives;
- Working towards achieving a just and more sustainable world in which power and resources are more equitably shared.

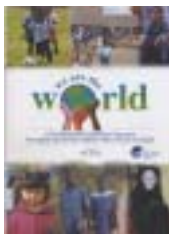

Primary Level Resources

Youth Work Resources

Development Education Strategy for the Voluntary Youth Sector 2004-2007

Irish Aid in partnership with the National Youth Council of Ireland (NYCI) has developed this strategy for development education in youth work, published in a report in 2004. (The NYCI has set up a specific programme for the implementation of the strategy, titled the National Youth Development Education Programme.) The report outlines and describes the key objectives of the Strategy which include the promotion of co-operation and collaboration between the youth and development education sectors, capacity building and good practice. This report is useful for youth leaders and youth organisations and all those who work with young people outside the formal education sector.

Teaching Social Justice

This book, produced by the Centre for Educational Disadvantage Research in Mary Immaculate College, explores current thinking in development and intercultural education. Examining the global and local contexts within which education takes place, it identifies and discusses the opportunities and methodologies for integrating social justice across all subject areas within the formal sector, including maths, science, and languages. It also raises more fundamental issues for development education, such as the nature of critical thinking, the relationship between development education and anti-racist education, and the future of development education.
