

To: #HQ-DCD PP&E White Paper Review

Subject: late submission on white paper review from Cllr. veronica Cawley

I wish to make a short submission on the white paper

in recent years I have noted with concern the increasing pressure placed on low income countries to grow crops for the production of bio-fuel.

the promotion of sustainable bio-fuels economies should be encouraged but not at the expense of the welfare and ability of people to provide for themselves.

Can you please consider the above as part of the review

kind regards

--

Yours truly

Cllr. Veronica Cawley
